# Paper Submission Guidelines

## *6th International Cruise Conference*

Conference Homepage : <http://www.cruiseresearchsociety.com/icc6>

### Guidelines for Authors

#### Word Limit:

- Papers **should not exceed 6,000 words** including abstract, keywords and references

#### Citation Style:

- APA Style citing / referencing rules need to be adhered to

#### Submission Deadline:

- **Submission deadline is July August 31<sup>st</sup> 2019.**

#### Submission Files:

- Papers should be sent as .docx file attachments via email to: [icc6@cruiseresearchsociety.com](mailto:icc6@cruiseresearchsociety.com).
- Figures and diagrams should be incorporated in the text file AND ALSO delivered separately in their original format (e.g. pptx, xlsx, jpeg).
- Pls refrain from 'PDF snapshots', as they have a low resolution and are inadequate for publishing purposes.

#### Paper Structure:

- Your paper should comply with the structure and format of the provided template.
- First level headings should follow the traditional logic: Introduction, Literature review, Data collection and research method, Results and discussion, Conclusions, References.

#### Formatting Guidelines:

- Do not capitalise words (or first letters) in headings (e.g. 'Literature review' NOT 'Literature Review'). This applies for figure and table headings too
- Do not number the section headings
- Try to limit the amount of figures and tables in the text (approx. 4) and do not use colour unless it is necessary.
- Figure and or table headings should be font calibri, size 11, italics, paragraph NOT centered or justified. The figures should be numbered with letters (i.e. Figure a, Figure b....).

*Use the template of the accompanying file (first page is the template and the second page is an example of the applied template). Pls adhere to theses instructions, as it eases editing and the production of the papers – which in turn will speed publication!*
